DAVE CLARK Sheriff

DAVE CLARK

J. W. Mink W. W. Anglin Deputies Republican Primary, August 6, 1921.

The Sheriff, by virtue of his office is the chief peace officer of any county, A peace officer is the Sherifi of a county or his deputy. The duties of a sheriff or his deputies are the same. Now, what are the duties of a sheriff or his deputy? He must enforce the laws enacted for the protection of the lives of persons, property, health and morals of the people. He is a conservator of the peace within his county It is his duty to prevent breaches of the peace when it can be avoided. His duties have been greatly enlarged by the "Volstead Prohibition Act", which act was intended to car: y out the 18th amendment to the Constitution of the United States. which amendment relates to the manufacture and sale of intoxicating liquors. This Act requires the Sheriff to co-operate with the Federal Prohibition Enforcement Officers and to apprehend and punish those who may violate this law. The Legislature of Kentucky added new duties to the office of Sheriff by enacting new and more stringent Local Option Laws. To further encourage the Sheriff to discharge his duties, under these new laws, the Fiscal Court of a county is required to pay him, for the arrest and conviction of a person violating the law by illegal distilling, a reward of \$50.00 for each person convicted. These additional duties have been imposed during the term of the present Sheriff, Mr. Tip Langford. There were no "moonshine stills" in this county when he went into office, and with proper vigilance and energy on his part, with the new laws at his command, if he had done his duty there would be none now. The power, under the law, was given to the Sheriff to prevent and suppress violations of the "New Prohibition Laws" and to no one else. Has the present Sheriff, Mr. Tip Langford, done his duty under these laws, and if he has not, can the people of Rockcastle County expect anything better by electing his son to the same office? There would be no change whatever so far as the Sheriff's office is concerned. One of them is sheriff now and the other his deputy. The men would be the same. The present sheriff would continue to be, as he is now, the controlling influence of the sheriff's office. His will would naturally control.

Has Tip Langford, now Sheriff, done his duty as Sheriff? Until his son, Bob, announced himself a candidate, Tip Langford was not out of Mt. Vernon, our County Seat, as many as a half dozen times, during the term of his office. Liquor and Liquor men had been run out of the large cities and "Moonshine stills" were being put into operation in the country and some in this County. The Sheriff was appealed to, by the good people, not to allow this evil to take root in this County; and to these appeals, although coming from the most law-abiding, he terned a deaf ear, and he alone is responsible for the condition of this County. It is the Sheriff's place to give the church-going people protection and this he has not done. When I am elected Sheriff I will show the people what it means to have a sheriff in sympathy with law enforcement. At the time appeals were being made by the people not one bit of help or encouragement came from the Sheriff. He took the position and argued that liquor had always been made and sold, and that the laws against the making and selling had always been violated and the law could not be enforced. Men and Women, think of a sworn officer trying to uphold offenders of this kind. It was his duty, as a man when these laws were made and not to his liking, to have resigned his office and allowed the people to have selected another Sheriff; but, on the contrary, he held on and showed by his acts that he was triendly to such law violations and as a result, if reports be true, we have "Moonshining" in this county, and the blame for it is on the Sheriff. It is a well known fact that he has never led a posse to destroy a "Moonshine Still". He has always been conspicuous by his absence when a raid was made -far in the back-ground. His Chief Deputy, his son, Bob Langford, who is now making the race for Sheriff has been just as absent and just as conspicuous in his absence These two men could have saved our County from the disgrace of the 'moonshine' business but they failed to do so. They have been weighed in the balance and found wanting. The reason they would not take the stand they should against this kind of crime is perfectly clear; they were both looking forward to this race and hoped to fool the people by playing both ends against the middle. I dont think the people of the County can be so easily fooled, for I have confidence in their intelligence.

I am calling upon the Republican voters of this County, both men and women, to give me and my deputies a chance and we will show you how the Sheriff's Office can be used for your protection and to your interest. We will make arrests and bring offenders into the Court House to be dealt with at the hands of the law,

I am going to assume the responsibility of the office of Sheriff and will faithfully and impartially discharge the duties of that office.

Your votes and influence are most earnestly and respectfully solicited,

Your Friend,

DAVE CLARK
